COMBINED MECHANICAL AND ELECTRICAL SERVICES

With the purchase of Cumbria Mechanical and Plumbing Ltd by J&J Electrical we can offer combined Mechanical & Electrical solutions to our clients.

Cumbria Mechanical and Plumbing Ltd is a business with over 30 years trading history and is wholly owned by J&J Electrical (Cumbria) Ltd. This partnership allows the delivery of both Mechanical and Electrical services under one contract number, as well as one experienced and responsible point of contact, our Project Manager.

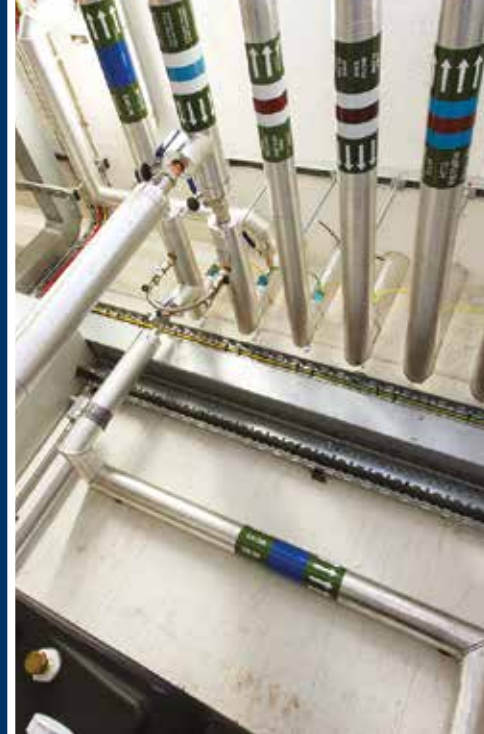

We now have over 50 years combined Mechanical and Electrical experience within our business, making us extremely well placed to deliver M&E projects for our clients and consider this approach to be beneficial for all involved.

With one company on site there can be no grey areas between the delivery of Mechanical and Electrical works ensuring all complex systems such as heating, lighting and power are co-ordinated and delivered seamlessly. Placing an order for the M&E package with one contractor has huge benefits on programme, cost, site interface and delivery responsibility as well as allowing first line design input and value engineering.

We strongly believe in getting involved in the project as early on as possible at tender stage. This allows our team to offer our extensive site installation experience to the client, designer and contractor providing valuable technical knowledge benefiting programme, cost and project delivery ultimately assuring that our part of your tender is a winning package.

With over 100 Mechanical and Electrical specialists, a strong back office as well as a Health and Safety department we ensure all works carried out are to the highest safety standards making us ideally placed to deliver your multi-disciplined package safely, on-time and on-budget.

- SPECIALIST LIGHTING SCHEMES

- INDUSTRIAL PIPEWORK

J&J ELECTRICAL (CUMBRIA) LTD

J&J Electrical (Cumbria) Ltd was established in 1993 and incorporated as a limited company in 2003. Our longevity and growth in the industry has been achieved by developing long term relationships with clients and contractors alike, which is a direct result of consistently delivering high quality work in a health and safety focused manor.

Our registered office is in Workington and our operational office is based at Kingmoor in the City of Carlisle, Cumbria – providing easy access into the south of Scotland and the north of England.

Over the last 22 years we have established ourselves and have developed an envious reputation with local authorities, health authorities, main contractors and consultants alike providing strong foundations and a loyal customer base which we continue to develop.

Our workforce is Cumbrian based and we are proud to say, we employ over 95% of local people at our operational office address. We have over 50 site based electrical engineers, complimented by a strong back office and management team along with 8 apprentices training towards being part of our workforce for the future.

We have worked in almost every industry associated with the built environment and have a proven track record in the following areas:

- COMMERCIAL
- MANUFACTURING
- EDUCATION
- PUBLIC SECTOR
- EMERGENCY SERVICES
- FACILITIES MANAGEMENT
- HEALTH CARE
- HOTEL AND HOSPITALITY
- LEISURE
- MAIN CONTRACTOR
- AFFORDABLE HOUSING
- NUCLEAR
- FIRE & SECURITY

J&J Electrical (Cumbria) Ltd are accredited with NICEIC, CHAS, Constructionline and Safe contractor. This subjects the company to regular third-party audits along with assessments to ensure our technical and commercial competencies are maintained. These accreditations also enable the business to keep up to date with the latest changes in industry regulations and developments in technology.

We are proud to say our workforce is our most valuable asset, and as we grow we are continuing to recruit skilled engineers to develop further. Our JIB approved electrical installation engineers are full time members of staff and many of them started out their careers with the business as apprentices. Our staff all carry I.D cards, CSCS cards and many of them hold CRB disclosures for when they work in environments with sensitive or vulnerable people in occupancy.

Collectively we employ over 100 people at our head office in Carlisle and regional office in Workington, including 20 back office staff along with 35 mechanical staff and 31 electrical engineers and apprentices within our parent company Cumbria Mechanical & Plumbing LTD.

CUMBRIA MECHANICAL AND PLUMBING LTD

Mechanical Services Contractor

Cumbria Mechanical and Plumbing Ltd was incorporated in 1984 and our head office has been in Carlisle since then. The business was recently acquired by J & J Electrical (Cumbria) Ltd and we continue to work as mechanical installer as well as a combined M&E services contractor.

It has always been our ethos to ensure the highest level of service is maintained in all that we do. The range of work carried by ourselves varies from small maintenance projects to major mechanical plant room installations of over £1m. No matter how large or small the project we will always strive to complete it to the highest quality whilst ensuring health and safety standards are met.

Over the last 30 years we have worked in almost every industry associated with the built environment and have a proven track record in the following sectors:

- COMMERCIAL
- MANUFACTURING
- EDUCATION
- PUBLIC SECTOR
- EMERGENCY SERVICES
- FACILITIES MANAGEMENT
- HEALTH CARE
- HOTEL AND HOSPITALITY
- LEISURE
- MAIN CONTRACTOR
- AFFORDABLE HOUSING
- NUCLEAR

Our mechanical engineers and plumbers are fully qualified with their relevant trade associations, including Gas Safe and the Lloyds Accreditation scheme along with our company being accredited to CHAS, Safe Contractor and Constructionline. This subjects the company to regular third-party audits and assessments to ensure our technical and quality competencies are maintained. These accreditations also enable the business to keep up to date with the latest changes in industry regulations and developments in technology.

We are proud to say our workforce is our most valuable asset, and as we grow we are continuing to recruit skilled engineers to develop further. Our mechanical engineers are full time members of staff they all carry I.D cards, CSCS cards and many of them hold CRB disclosures for when they work in environments with sensitive or vulnerable people in occupancy.

Collectively we employ over 80 people at our head office in Carlisle and regional office in Workington, including 20 back office staff along with 40 mechanical staff and 50 electrical engineers and apprentices within our parent company J&J Electrical (Cumbria) Ltd.

Our engineers cover:

- PLUMBING
- LPG
- DOMESTIC GAS
- COMMERCIAL GAS
- OFTEC
- CODED WELDER
